

WOODLAND CARIBOU AND CANADIAN FOREST MANAGEMENT

CIF/NRCan ELECTRONIC LECTURE SERIES # 3

The series will begin with overview presentations of the current issues in Woodland Caribou Management in Canada, and will conclude with presentations on various provincial research initiatives that are currently taking place.

1. Wednesday October 10, 2007 – 1:30pm EST
Martin von Mirbach – Vice-President, Forest Stewardship Council Canada
“Managing Caribou in FSC Certified Forests in Canada: Issues for Consideration”
2. Wednesday October 31, 2007 – 1:30pm EST
Ted Armstrong and Gerry Racey – Ontario Ministry of Natural Resources, Northwest Region/Wildlife Section
“An Overview of Caribou Habitat Requirements, and the Relationship to Forest Management within the Ontario Context”
3. Wednesday November 21, 2007 – 1:30pm EST
Andrew de Vries – Forest Products Association of Canada, Conservation Biology and Aboriginal Affairs
“Caribou conservation policy and regulation: a forest industry perspective”
4. Wednesday December 12, 2007 – 1:30pm EST
Dr. James Schaefer – Trent University, Biology Department
“Habitat Selection and Persistence of Woodland Caribou at Multiple Scales”
5. Wednesday January 9, 2008 – 1:30pm EST
Dr. Dale Seip – BC Ministry of Forests and Range, Northern Interior Forest Region
“Recovery planning for different ecotypes of woodland caribou in B.C.”
6. Wednesday January 30, 2008 – 1:30pm EST
Daniel Fortin – NSERC-Laval University industrial research chair in silviculture and wildlife and Department of Biology, Laval University
“Habitat selection by woodland caribou and their predators in the managed forests of Quebec”
7. Wednesday February 6, 2008
Kirby Smith – Alberta Sustainable Resource Development, West Central Caribou Recovery Committee
“West-Central Alberta caribou recovery planning – case study”
8. Wednesday February 20, 2008 – 1:30 pm EST
Micheline Manseau, PhD – Ecosystem Scientist, Western and Northern Service Centre, Parks Canada
“Relationship between landscape connectivity and gene flow for woodland caribou”
