

Short-Rotation Woody Crops Field Day and Exhibition

Afforestation and Concentrated Biomass for Bioenergy and Bioproducts

The **Canadian Wood Fibre Centre** and **Canadian Forest Service** would like to invite you to participate in a Short-rotation Wood Crop Field Day and Exhibition being held at the Pickering Federal Lands site. Field presentations, exhibits, and site and equipment demonstrations will be included along a trail system promoting short-rotation woody crop production for bioenergy and bioproduct conversion as well as high value (mixed) afforestation. Establishment, management and harvesting practices, fibre and carbon growth and monitoring procedures, site selection and species/clone suitability as well as conversion options and product samples will be presented. A proceedings guide with related resource materials will be available. Lunch Supplied.

Registration Form

Short-Rotation Woody Crops Field Day and Exhibition

Afforestation and Concentrated Biomass for Bioenergy and Bioproducts

November 5, 2008

Claremont, Ontario

The [Canadian Wood Fibre Centre](#) and the [Canadian Forest Service](#) are hosting a Short-Rotation Woody Crop Field Day and Exhibition being held at the Pickering Federal Lands site in Claremont, Ontario. Field presentations, exhibits, site and equipment demonstrations will be included along a trail system promoting short-rotation woody crop production for bioenergy and bioproduct conversion. Establishment, management and harvesting practices, fibre and carbon growth and monitoring procedures, site selection and species/clone suitability as well as conversion options and product samples will be presented. Register by [faxing or emailing this registration form to Darren Allen @ \(705\) 541-5701, or \[daallen@nrca.gc.ca\]\(mailto:daallen@nrca.gc.ca\)](#).

The event is divided into 2 repeat sessions, 1 in the morning and 1 in the afternoon. **Introductions begin at 9:30a.m. and 1:00p.m. Please indicate which session you will be attending on the form below.** Morning session tours leave at 10:00 while afternoon session tours leave at 1:30. Lunch will be served onsite at 12:00 for both afternoon and morning sessions. Attendees should bring appropriate footwear and clothing for November weather conditions in southern Ontario (normal temp range: +5 to -5 °C).
